**"IMPOSSIBLE,"** for you to enjoy the happiness of motherhood," says the doctor. Sometimes he qualifies the statement, and says: "Impossible without an operation." Yet both these "impossibles" have been made possible by the use of Dr. Pierce's Favorite Prescription. Many times the hindrances to motherhood are to be found in women diseases or weaknesses which are perfectly and permanently cured by "Favorite Prescription." The great great medi-

cine for women cure paralysis, debilitates, dandruff, inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

"I wish to add my testimony to the hundreds of others to the value of your prescription. I am a wife Mrs. Edna M. De Pauw, of Latona, Indiana, with a great many physicians—some specialists—in a hospital for treatment. My case has been all over the country, and they do not know what the trouble was. Heart was tired; stomach all out of order; tired out; severe pains in all parts of the body; skin sensitive; every ailment a woman could have. I took a bottle of 'Favorite Prescription' without effect. I began taking Dr. Pierce's prescription, and ten months afterward I was stated to be healthy again. And now I have a baby and myself were strong, and good as new. I thank you for your medicine."

## TOUCHING CEREMONIES.

Dedication of the Monument at Nancy Hank's Grave—Distinguished Guests.

A dispatch from Lincoln City, Ind., under date of October 1, says: The dedication to-day of the monument erected at the grave of Abraham Lincoln's mother attracted a large attendance of visitors from Illinois, Ohio, Kentucky, Indiana and other States. Special trains brought Gov. Durbin and staff from Indianapolis and special parties from Louisville, Evansville and other places. The ceremonies were held on the hill immediately across from the place where stood the cabin in which the Lincoln family lived and where Mrs. Lincoln

He is not a Carlisle, a Lindsay, or a Reed, to think it a good riddance, and to join the elite at the bar, so he hangs around the capital, hoping for the appointment that comes not. ## CONFIDENT.

Judge Guffy Says Republicans are Sanguine—Many Democrats Will Support Him.

Judge Guffy delivered two speeches at Tomkinsville, September 27, to large crowds. He spoke to over 3,000 people, who were in Tomkinsville attending the reunion of old Federal soldiers. Strict attention was given him and he won many votes by his eloquent addresses. The Judge said the following to an interviewer: "I never felt stronger or better in my life. I have been nearly all over the district and I find the Republicans sanguine of success and well prepared for the campaign. Many Democrats have promised me their support and the outlook is very encouraging."

Stricken With Paralysis. Henderson Grinnell, of this place, was stricken with partial paralysis and completely lost the use of one arm and side. After being treated by an eminent physician for quite a while without relief, my wife recommended Chamberlain's Pain Balm, and after using two bottles of it he is almost entirely cured.—Geo. R. McDonald, Man, Dogan county, W. Va. Several other very remarkable cures of paraplegia have been effected by the use of this liniment. It is most widely known, however, as a cure for rheumatism, sprains and bruises. For sale by all druggists.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your body's drains, one as though the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

For acid and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or uneasy heart trouble, and one as though the heart had stopped, because the heart is overworking in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney remedy is second to none. It holds the highest for its wonderful cures of the most distressing cases and is sold on its merits.

It is the dried root of the Swamp Root, one cent and one dollar size.

## HENRY CLAY.

The Great Kentucky Orator and Lawyer as an Actor.

A well-known traveler of Chicago tells an interesting story in the Courier-Journal about Henry Clay, the great Kentucky statesman, then a well known lawyer, as follows:

The man was once being tried for murder, and his case looked hopeless, indeed. He had, without any seeming provocation, murdered a neighbor in cold blood. Not a lawyer in the country would take the case. It looked bad enough to ruin the reputation of any barrister.

The man, as a last extremity, appealed to Clay to take the case for him. Every one thought that Clay would certainly refuse. But when the celebrated lawyer looked into the matter his fighting blood was roused, and to the great surprise of all, he accepted.

Then came a trial, the like of which was never seen. Clay slowly carried on the case, and it looked more and more hopeless. The only ground of defense the prisoner had looked at him with a fierce, murderous look that out of self defense he had struck first. A ripple passed through the jury at this evidence.

The time came for Clay to make his defense. It was settled in the minds of the spectators that the man was guilty of murder in the first degree. Clay proceeded, laid all the proof before them in a masterly way. Then, just as he was about to conclude, he played his last master card.

"Gentlemen of the jury," he said, assuming the fiercest, blackest look and carrying the most undying hatred in it that I had ever seen, "gentlemen if a man should look at you like this, what would you do?"

That was all he said, but that was enough. The jury was startled and some even quailed in their seats. The judge moved in uneasily on his bench.

After fifteen minutes the jury filed slowly back with a "Not guilty, your honor."

The victory was complete.

When Clay was congratulated on his easy victory he said:

"It was not so easy as you think. I spent days and days in my room before the mirror practicing that look. It took more hard work to give that look to investigate the most obscure case."

Doctors would often lack for patients if they let well enough alone.

## TRACY, THE SHOEMAKER.

Was the Oregon Outlaw, the Son of the "Virginia Stranger."

When Harry Tracy, the outlaw,

desperately wounded and with all hope of escape cut off, placed his pistol to his temple and died by his own hand, in an Oregon wheat field, rather than fall into the hands of the sheriff's posse, nothing could be learned of his antecedents. Then the New York Sun employed detectives to find out the history of the desperado, and as a result of the investigation the Sun states in a three column article that the dead outlaw was the son of a shoemaker, who, at one time, did business in Harrodsburg, Ky. There was a shoemaker by the name of

We are authorized to announce W. T. OWEN, of Davies county, as a candidate for Circuit Judge in the Sixth Judicial District, subject to the action of the Democratic party.

It is reported that King Leopold of Belgium will soon abdicate the throne in favor of his nephew, Prince Albert, son of the King's brother, the count of Flanders. King Leopold is sixty-seven years old and his age, together with the loss of his estimable wife a few days ago, are assigned as the causes of his abdication.

To other than Frenchmen, the spectacle of Dreyfus marching meekly behind the bier of his great friend and benefactor, M. Zolo, was an inspiring scene. The press dispatches say that his countrymen scarcely noticed the presence of Dreyfus. How difficult it is for men to forgive one whom they have wronged.

The Herald will indulge us just one comment upon the Democratic primary, we should like to ask why Mr. Ben D. Ringo, candidate for the nomination for Commonwealth's Attorney, should be required to put up \$475 to help defray the expenses of the primary when he has no opposition? Why should not the committee declare his nomination and save him this money? If the Democrats want to shear their own flock, they have the privilege of doing so, but the justice of shearing Mr. Ringo does not appear to one not up on Democratic politics.

PROF. John Burke, a distinguished educator of Newport, is Instructor at the Institute this week, and his work has been very satisfactory to that body. The Republican State convention at Lexington in 1899, recognized Prof. Burke's ability as an educator when it gave him its nomination for Superintendent of Public Instructions and the voters of the State recognized his ability for school work, when they elected him to that office, and a Democratic Legislature recognized the principle of pillage and plunder when it stole the office from him.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work.

Miss Ella Smith was the guest of the family of Mr. T. J. Smith in Hartford during the fair.

Messrs. Edward Swett, Arthur Smith, Elvis Johnson, Tilden and Albert Morrison were in Hartford Friday and Saturday for the fair.

Mr. T. H. Ford was in Hartford a few days last week.

Mr. and Mrs. F. H. Lloyd are visiting relatives in Beaver Dam.

Sam Bartlett, of Daviess county, filed suit in the Circuit Court here Wednesday against his wife, Eva Bartlett, for divorce. Mrs. Bartlett is in jail here charged with concealing the birth of a child and the notice was served on her at the jail. Mrs. Bartlett was formerly Miss Eva Long, and lived about two miles east of Hartford when the crime charged was alleged to have been committed.

The strike of the anthracite coal miners in Pennsylvania is rapidly becoming, if indeed it is not already, the most alarming incident that ever occurred in industrial circles in the history of the country. The hard coal miners of Pennsylvania have been on a strike since May and a coal famine is in sight for the North and East. The situation became so grave that the President has held several cabinet meetings to discuss it, but without tangible results. The strike continues without prospect of immediate settlement, but if it were settled now, and the miners returned to work at once, the hardships and suffering

this winter in those cities dependent for fuel upon the Pennsylvania coal fields must far exceed any similar calamity that ever befell the people of this country. It is already freely predicted that coal riots will occur this winter in the Eastern cities, and that it will take a dozen policemen to deliver a cart load of coal in the poor districts. But terrible as the result must be, some good will result from it. It will awaken the public to the necessity of forcing some legislation to adjust these oft recurring disputes between operators and the labor unions in which the public welfare is so vitally interested.

W. BRYAN, well known to the American people as a stumper, will be stumping Nebraska for the fusion ticket of that State to-day. Judging from results of Mr. Bryan's former stumping, the election of the Republican ticket in Nebraska, is pretty sure.

The National Encampment of the Grand Army of the Republic is holding its 36th annual reunion at Washington this week. More than thirty-seven years have elapsed since the deafening din of that deadly conflict died from echoes into silence, and when it is remembered that the most youthful soldier must have then lived a score of years, the youngest comrade in the line of march at the Capital City, must be bent with the weight of years. There are no young men there. The blasts of many winters have blown crystalline frost into their hair, and three score years and more have marked their faces with deepening lines, yet, year after year, the undaunted braves meet to rekindle their campfires, and for a few hours, live again amid the martial scenes of the long ago. But each succeeding year finds the ranks broken here and there by a stronger hand than man. Each year, ay, each day, veterans, gallant and brave, whose hearts never quailed before the furious engines of death on the gory fields of war, answer weekly to the celestial roll call to duty. The time is not far distant when the last veteran of that dreadful conflict must answer to the summons of that Great Commander whose voice the spheres obey. But while the remnant of that once mighty and invincible army is with us, we should spare no effort to do them honor, because they made possible the existence of the mightiest imperial Republic the world ever saw. All honor to the peaceful warriors now in conclave at the Nation's Capital.

Cutting Affray at Rockport.

Rockport, Ky., Oct. 9.—Last Monday Herbert and Cleburn Baker, of this place, boarded train No. 121 for a short trip south of here. Herbert purchased a ticket for Nortonville and was going from there to Linton, Ind., while Cleburn was going to change cars at Princeton, where he was going to work under bridge foreman, A. M. Harrel, on the O. V. R. Both Herbert and Cleburn were drinking. Bridge foreman Harrel was on the same train with a pass for the gang. Cleburn was included in the pass. While the train was between here and Nelson station, conductor H. Y. Hansbrow came to Cleburn for his pass and they got up a little dispute over the pass. Cleburn Baker and the conductor exchanged a few words and got to fighting. Baker reported that the conductor drew a revolver on him, and he stepped behind a bystander and dodged around and knocked the gun out of his hand.

By this time the porter interceded and Herbert Baker interceded and cut the porter very bad, so that he had to stop off at Central City. The Barber boys returned to Rockport on the next train, very bloody and looked as though they were badly hurt, but they were not.

**SAFE BLOWERS**  
Crack Two Safes at Calhoon and  
Get Only a Hundred  
Pennies.

Wednesday morning about two o'clock burglars entered the post office at Calhoon and blew open the office safe with nitro-glycerine, but secured only a hundred pennies for their pains. The postmaster frequently leaves small sums of money in his safe at night, but fortunately Tuesday evening he took his money to the house. The robbers were evidently amateurs for they left more than a hundred dollars worth of stamps untouched.

Defeated in their efforts to secure money at the post-office, the safe-crackers went to Reeves Bros.' store, effecting an entrance by way of a rear window, and proceeded to blow the safe there.

The noise made by the cracking of the store safe awakened some parties sleeping near by and the town was at once alarmed. A searching party, headed by the sheriff and town marshal, was at once organized and set about the pursuit of the burglars.

At 3 o'clock Wednesday morning Sheriff Cal P. Keown, who has made something of a reputation as a capturer of safe blowers, was telephoned for.

Sheriff Keown, owing to certain business engagements, was unable to go to the scene of the burglary, but telephoned to Dundee for bloodhounds which passed through here at 2 o'clock Wednesday morning in charge of Mr. J. N. Cole, en route to Calhoon.

## THE FRUIT OF THE ROSEBUSH

By Howard Fielding

Copyright, 1901, by Charles W. Books

HERE reclined in a seat of the smoking car a young man in a soiled and dusty gray suit and a white "sweater" stained with machine oil. His head was in a corner, and his cap was over one eye. The conductor, coming through the train for fares, gently shook this passenger, thereby hitting his head. "I wonder what he means," said the young man's hand, which proved upon inspection to be satisfactory.

In the next seat rearward were two men who glanced at the conductor and nodded familiarly. The older of them had high shoulders, rather too heavy for the rest of his figure; a long face and a prominent nose, slightly redened at the end. He also had a fat hand, which was always ponderously busy when he talked.

"You don't show up with the money. Do you understand?" said he.

The person thus addressed was a thin, pale, look-like-as-an-ox. He carried his high hat on his knees and gazed at it with his nervous hands.

"I had made up my mind that I couldn't spare the money," said he. "I had intended to let Uncle Amos know today that he must not depend upon me."

"Next week will do just as well," was the rejoinder. "I mean what I say, Baring."

"It will put Uncle Amos in a hole," said Baring. "We won't be able to turn himself. You'll foreclose your mortgage, and in the end you'll have the farm."

"Uncles Lawrence worth more to you than I am," said the other. "That's all you've got to consider. Can you get anything politically without me?"

"Frankly, Mr. Beckley," said Baring. "I don't believe I can nor any other man in this district."

"Lawrence came out against me last fall," said Beckley. "He found fault with my man."

Baring smiled grimly. Then he assumed suddenly the professional manner of the lawyer.

"I've come to let him think he's going to get that sum of me until it's too late for him to raise the money anywhere else," he said in a short, crisp tone scarcely above a whisper. "Very well. It's dirty work, but I'll do it."

"I thought so," said Beckley. And the fat hand came to rest upon his knee.

Uncle Amos Lawrence sat on the well curb filling his pipe after supper when a young man in a dusty gray suit approached him across the grass.

"Good evening," said he, halting with one foot on the edge of the platform across the way. "I'm afraid if you could spare me a drink of water."

"Our well's sixty-five feet deep, an' it's nearly full," said the farmer. "How much do you hold?"

"I'm dug out pretty thin," answered the young man, "and I haven't had dinner yet!"

"No dinner yet?" echoed Uncle Amos, with evident concern. "Nothin' since breakfast? Dear me! Been footin' it far?"

"Not a great way," was the reply. "My machine broke down!"

"Oh, you're a bicycle rider," said Uncle Amos, "off on a tour. Vacation, I suppose?" The young man nodded.

"Well," said the farmer, "go into the house, an' mother'll give you a bite to eat."
